RE+BUS

An architectural rendering of a modern building facade. The building features a prominent vertical wood slat cladding system. Large windows and glass doors are integrated into the design. Several balconies with dark metal railings are visible, some with potted plants. People are shown walking on a path and sitting on a bench in the foreground, suggesting a residential or public space. The overall aesthetic is clean and contemporary.

RE+BUS

A photograph of two men in a modern building with large windows and wood-paneled walls. One man, wearing a dark suit, is gesturing while talking to another man wearing a high-visibility yellow safety vest and blue work pants. The scene is overlaid with a teal tint. The text 'RE+BUS' is centered in white.
